

Modular Run Panels

Can be configured to make various sizes of walk-in height run with or without a framed and meshed roof. Sizes can be increased, when required by adding panels

Four types of panel are available:-

- Standard panel (framed and wired) 
- Poultry Access Panel (framed and wired with access opening) 
- Door Panel (framed and wired with hinged opening door) 
- Roof Panel (Framed and wired)

All panels are the same size, Pick and mix to acheive the desired run layout. (Roof panels are not interchangeable with side panels)
